I've received a few but not at liberty to say right now!

How do you envision your city's quality of life in the next 10 years?

Two Words = Growth + Prosperity!

What ideas do you have to make it easier to open and maintain a new business in your municipality?

Get out there + talk to the citizens + find out what's in their hearts + minds! We make up the Township! Can't last if we're not spending the money or wanting to stay so, it's a what have you done for me lately type of thing as far as I can see!

What are the key issues/challenges in your city?

Attracting new businesses and keeping them. Also. Finding the young + young at heart more to do at a reasonable price! example: Movie Theatre + Laser tag.

How do you plan to solve them once in office?

I'm out there in the community everyday in my role as a counselor, mentor, Coach, Advisory Board member, parent + concerned citizen, I talk to the people but more importantly, I listen! I will take what I've learned back to the higher + ask for change!

What new ideas/concepts can you bring to the office you are seeking?

I think getting the older businesses to trust Social Media

because if used correctly it can be a good tool + of course try to
