#1. In district 3 we are in the unique position that we are less transient than other parts of Fayetteville. Many of our homes are occupied by owners, some of them the original owner from over 50 years ago. Our crime statistics demonstrate that we have a low number of reportable incidents and much of this can be attributed to the vigilance and concern of those homeowners. My thoughts are that in encouraging home ownership we create a climate for community engagement that may otherwise not exist. There is room for residential growth and redevelopment in our district and it will be encouraged when I am elected to the city council.

#2: The plan for attracting new businesses to district three and Fayetteville at large is to make sure that we are ensuring a climate, which develops both a technical and vocational workforce to support those businesses. The reality is that without this workforce, we will continue to be overlooked as a location for strategic economic development partners.

#3: For me, quality of life means ensuring there are equal opportunities for a standard of good health, relative comfort and overall enjoyment experienced by individuals or groups in a community or society

#4: What I will bring to the City Council is a fresh approach for continuing to establish trust and confidence in local government through direct and easy to understand communications. I will always work to put the needs of the people first. I will continue to work diligently to adequately inform the public of opportunities to be involved in the planning and strategizing of the communities in which they work and live. An increase in unified citizen participation should always be a focus of a government of the people, by the people and for the people!

#5 I would take Political Action Funds from the Longleaf Pines REALTORS, Inc. I do have an open campaign account.
