Serving REALTORS in Eastern North Carolina since 1946

## 2020 Candidate Questionnaire County Elections

Do you have any ideas or a plan to help with the current negative economic results of the pandemic and how would you implement? As an elected member of the Lee County Board of Commissioner's, we worked very hard to keep everyone employed and safe as well. Those that could work from home did and those people's job that would not allow working from home continued to come to work. We were also able to offer small business loans to help small businesses make payroll to help during the pandemic.

If elected, how would you resolve any water issues (i.e. Gen X) or future water contamination in your County? How do you safe guard clean water? Water is critical to all aspects of our lives. The best way to protect your drinking water is to prevent pollution. Drinking water can get polluted from a multitude of things. The best method to remove GenX from water is with reverse osmosis filter system. There are many things we can do to protect our drinking water. Proper disposal is key.

(this question only applies to Cumberland County) Now that Cumberland County is considered a Tier 1 status, what grants would you propose applying for?

N/A Lee County Board Member

As REALTORS<sup>®</sup> become more engaged in our communities, how do you propose to improve communication to be a part of the conversation instead of REALTORS<sup>®</sup> being reactive to issues that harm homeownership and private property rights?

I would welcome the Realtor community to contact me at any time to find out what we are doing here in Lee County. I would also welcome the realtors to visit our Lee County website or Facebook page to see what is going on in the county. I am pro jobs and business. We have created over 2500 jobs recently and these people will need homes in our area.
